

Fajar Pratama

Fullstack Web Developer

I really like solving problems in programming implementation. It has its own happiness for me, but with my skills still not good, I will continue to learn. My experience is to create projects using full javascript, with node JS, Express JS, React JS, Next JS, React Native, Vue Js, Nuxt Js, and Mysql. Let's see my portfolio here.

SKILLS

- JavaScript
- ReactJs
- ExpressJs
- Bootstrap
- HTML
- CSS
- MySQL
- Redux
- React Native
- VueJs
- Vuex

WORKING EXPERIENCE

- **Fazztech.id** | Full-time Remote Project software engineer

Agustus 2022 - Desember 2022

I am a Full-time Remote Project software engineer, working for a startup company whose scope of business activities is in the Fazztech 2022 Project Development sector. In this job request, in 3 months I developed 3 projects from the request of my team leader, every week I have a meeting with the team to discuss what I have developed, and fix existing bugs. Ensure the quality of the code in the merge request with a good code review. The projects that I have developed are Digiexpert Indonesia, Simendor - PUPR, and Fazztrack.

- **Planet Computer Sukabumi** | Internship

November 2010 - Juni 2012

Perform computer assembly, software installation, operating system, In a day can receive computer assembly up to 5 - 10 computers, and receive damage to the customer's computer / laptop 10 devices, both software and hardware.

EDUCATION

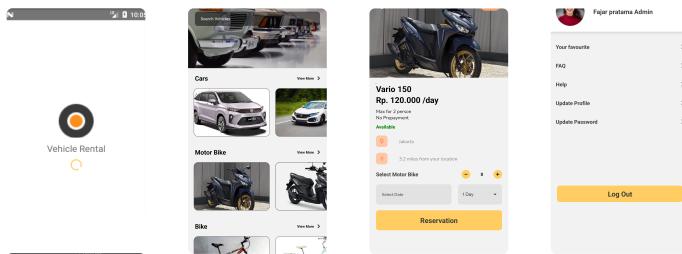

- **Fazztrack** | Fullstack Web Developer

November 2021 - Maret 2022

- **Digitalent Kominfo** | VSGA - Junior Web developer

Agustus 2021 - November 2021

PORTFOLIO

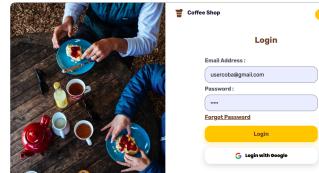

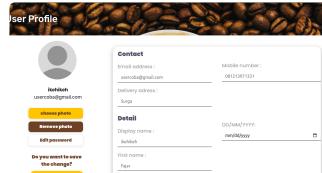

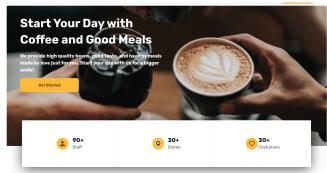

Vehicle Rental Mobile

<https://drive.google.com/file/d/1utsVjCHTp9kiBkxPMxA32jF6B7AwnVG-/view?usp=sharing>

The mobile version of the Vehicle rental project uses react-native technology, and other supporting libraries such as axios, redux, react push notifications, and uses the backend of the Vehicle Rental project with express js technology.
